

# IW 2050

*The Nilfisk IW 2050 is designed to vacuum metal scraps, as well as coolants and lubricants used to fabricate and form metals. With its advanced filtration system, the IW 2050 enables workers to efficiently pick up heavy metal scraps and metalworking fluids with minimal danger of escaping aerosols that can contaminate the working environment, damage nearby equipment and make floors slippery. The vacuum cleaner also features two powerful motors, a stainless steel container and a trolley for easy maneuverability.*

*The IW 2050 easily picks up metal chips and particles, oily cuttings, coolant spills and more.*

*The IW 2050 picks up debris and maintains a clean, safe working environment.*

*The IW 2050 motor head is hinged to the trolley for easy access to the tank for disposal.*

# SPECIFICATIONS

## IW 2050

Voltage	volts	110-120
Current draw	amps	13.3
Power	watts	1600
Waterlift	inches	70
Airflow	cubic ft./min.	150
Air performance	air watts	320
Tank capacity	gallons dry bulk	13
Dimensions	inches	30.75 x 21.25 x 46
Weight	lbs.	110
Sound level, at 5 ft. from vacuum	dB(A)	67
Cord length	feet	50

# FEATURES & BENEFITS

## IW 2050

-  Dual motors provide increased performance for collection of metal chips, oils, lubricants and coolants.
-  Built-in filtration system greatly reduces the amount of liquid aerosols from coolants and lubricants released into the working environment by trapping them with a foam sponge and absorbent pad.
-  Hinged, pressurized gas shock system allows motor head to swing up for quick access to tank for easy disposal.
-  Smooth stainless steel container is easy to clean.
-  Automatic float valve shut-off protects motor from debris and prevents overflow.
-  Accessory storage on board trolley provides convenience.
-  Trolley features sturdy construction and large wheels for easy maneuverability.
-  Built-in separation screen removes metal chips from coolants for possible recirculation.
-  Gravity discharge ball valve allows for quick and easy recovery of filtered coolants and lubricants.

*The IW 2050 with crevice nozzle allows the operator to clean deep machine sumps.*

*All accessories for the IW 2050 have been designed for the metalworking industry and are resistant to oils and lubricants.*

### STANDARD ACCESSORIES

- Foam filter
- 2" /10 ft. hose
- Utility tool
- Absorbent pad
- Steel wand
- 2" curved steel floor tool
- Crevice nozzle
